- Electronic multi coin mechs fitted as standard. Note acceptors also available (currency restrictions may apply). Alternatively, can be supplied ready to interface with customer's own card swipe system.

- Cab and trailer chassis moulded from polypropylene with additional support from substantial bumpers to ensure Super Trucks are strong and extremely hard wearing.

- Three styles of cab body available and four styles of trailers. Any truck will connect to any trailer, see styles over.

- Indoor or outdoor operation with all age appeal.

- With no direct staffing, our standard "Genesis" technology provides the desired minimal maintenance, excellent payback and consistent profits.

- Realistic backup beeper sounds

max. height
720mm

- Realistic backup beeper sounds when the truck is reversed. Speed also reduced to 1/5th of forward speed for extra control.

**- To assist with trailer coupling
automatic brakes operate on two
wheels of the trailer.**

- Should the truck jack-knife, the trailer will part with the cab unit automatically.

- Available in sets of 4,6,8,10 or 12 models, please see recommended area sizes over.
