We love Emojis!

The RodecoWay

” We create space for play that develops children and business”

What we do

- We create, produce and install safe and secure playgrounds and waterparks for indoor and outdoor use, where children can have fun and develop along with their parents.
- A place to meet. A place where people and business grow and develop together.
- All our playgrounds are custom designed, corresponding to appropriate ages and created with a mix of function and adventure to make a memorable play experience.
- We design and build our playgrounds with many different environmentally friendly materials, such as glass fibers, rubber, steel, foam, wood always of the best quality.

More than just a playground...

- It attracts families!
- It improves the company image
- It helps towards a quieter and better ambience and shopping experience
- Visitors stay longer in the shopping mall and therefore it increases revenue

RODECO®

DESIGN MANUAL

RODECOS PLAY MODULES MEET EMOJIS

Hills and Caves

Hills in different sizes (D400mm-1000mm)

Climb, balance and sit

Material: Fiberglass, EPDM-rubber

Shock absorbing low hills in different sizes

(D800 H200mm-D1300 H250mm)

Climb, balance and sit

Material: Fiberglass, EVA, EPDM-rubber

Double or triple hills

Climb, balance and sit

Material: Fiberglass, EPDM-rubber

Caves (D1560mm H590mm)

with one or two entries

Climb, hide and crawl through

Material: Fiberglass

EPDM-rubber and polyester coating

Additionally, motion sensor can be installed inside

that can trigger light and sound

Small mountains and stone (Hmax600 x B1580 x L1350mm)

Climb, balance and sit

Material: Fiberglass, EPDM-rubber

consejos

Slides

Poo slide (H450 x B1500 x L1600mm)

Climb up and slide down

Material: Fiberglass, EPDM-rubber and polyester coating

Tunnel bridge small (H800 x B440 x L1580mm)

Tunnel bridge large (H1200 x B570 x L2400mm)

Crawl under, climb up and slide down

Material: Fiberglass, EPDM-rubber, MDF,

polyester coating and metal

Little hill slide (H590 x B1750 x L1400mm)

Climb up and slide down

Material: Fiberglass, EPDM-rubber
and polyester coating

Hill slide large (H1400 x B2860 x L2900mm)

Slide and hide

Material: Fiberglass and polyester coating

Tube slide (H2100 x D2350mm)

Slide and hide

Material: Fiberglass and polyester coating

Additionally, motion sensor can be installed inside
that can trigger light and sound

Rainbow slide with clouds (H500 x B1500 x L3860mm)

Slide, climb and crawl under

Material: Fiberglass, EPDM-rubber and polyester coating

Rainbow slide with hill (H500 x B1740 x L3250mm)

Slide, climb and crawl under

Material: Fiberglass, EPDM-rubber and polyester coating

Miscellaneous play products

Trees and figures with mirrors

Screening, play peekaboo

Material: Fiberglass, EPDM-rubber

Plexiglas mirrors

Pile of Emojis

Climb up and balance

Material: Fiberglass, EPDM-rubber

Seaweed, Lollipop straight, Lollipop angled

(H1600 x B500 x D60mm, can be installed to different heights)

Hang and cling

Usually combined with shock absorbing low hills

Material: Steel powder coated in 10 different colors

Metal rainbow

(H1200 x B2000 x D60mm, can be installed to different heights)

Hang and cling

Usually combined with shock absorbing low hills

Material: Steel powder coated in 10 different colors

Más información y
consejos

Spring swing (H1150 x B420 x L540mm)

Material: Steel powder coated, wood

Tic Tac Toe

Material: EVA foam, vinyl floor decal

Can also be used for seating

Climbing

Climbing hill (H1500 x D3000mm)

Can be placed as half against a wall

Material: Fiberglass, polyester coating, climbing grips

Climbing wall (H2200 x B2200mm)

Material: Wood, fiberglass,

polyester coating, climbing grips

Additionally, a button with light and sound can be installed.

consejos

Seating

Sitbench (straight H500 x D400 x L2000mm and bend H500 x D430 x L2450mm)

Balance and sit

Material: Fiberglass and polyester coating

Sitbench Love and Hope (H450 x D450 x L2000mm)

Balance and sit

Material: Fiberglass and polyester coating

Interactive touch screen systems

Standing touch screen system with 2 screens on both sides
or combination of one screen and one play panel
Game applications, graphics and led lighting
are customizable.

Table interactive play system with 32inch screen
Game applications and graphics are customizable.

Play panel stands

Play panel stands

Material: Fiberglass, Powder coated steel, MDF and polyester coating

Más información y
consejos

Crafting tables

Crafting tables with free standing seating hills

Material: Fiberglass, EPDM-rubber and polyester coating

Miscellaneous figures

Miscellaneous sculptures with
possibility for light and sound features

Material: Fiberglass, and polyester coating
